

14th International Lattice Data Grid Workshop

June 5th 2009

- as of ILDG13,
 - ✓ (1st stage) system construction had completed
 - ✓ the system was working (almost) stable
 - ✓ the ILDG was already used as an infrastructure
- at ILDG13, future directions and issues were discussed
 - ✓ improve function (replica, new application, metadata capture,....)
 - ✓ extend to new type of data
 - ✓ invite new groups / countries
 - ✓ get man power / funding
 - ✓ and more
- to see how situation changed in these six months
- to check whether orbit correction is necessary or not
