

15th International Lattice Data Grid Workshop

December 4th 2009

- Status of ILDG as of ILDG14
 - ✓ working almost stable
- Action plan agreed at ILDG14
 - ✓ extend ILDG to share quark propagators
 - determine file format, minimal set of metadata, storage
 - ✓ some action to invite new groups / countries
 - ✓ complete ILDG paper
- Issues discussed at ILDG14
 - ✓ workflow as a tool for data provenance and metadata capture
 - ✓ getting resources (man power, funding)
- to check whether ILDG is working as a useful infrastructure
- to see what is (is not) achieved in these six months

Program

- Site reports on physics plans and ILDG usage
- Working group reports
- Regional grid status reports
- Summary and Discussions
 - ✓ summary of ILDG status and activities this year
 - ✓ future direction of ILDG
 - ✓ action plan for next (half) year
 - ✓ how to organize future workshops
- Other Business
 - ✓ appointment of Chair for 2010
 - ✓ date of next meeting
